Kolkata – The City of Joy and Medical Excellence

A City of Heritage and Heart

Kolkata, the capital of West Bengal, stands gracefully on the banks of the River Hooghly. Known as the “City of Joy,” it is a city where history, culture, and science coexist in harmony. Once the capital of British India, Kolkata continues to be a centre of learning, creativity, and intellectual pursuit.

A HUB OF MEDICAL INNOVATION:

Kolkata has a proud legacy in medicine and surgery. It is home to some of India’s earliest and most prestigious medical institutions:

- Calcutta Medical College (est. 1835) – the oldest medical college in Asia
- IPGMER & SSKM Hospital – a leading centre for advanced medical training and research
- NRS Medical College
- R.G. Kar Medical College, and
- RTIICS (Rabindranath Tagore International Institute of Cardiac Sciences) – leaders in patient care and medical innovation

The city has emerged as a referral and research hub for the entire eastern region, offering excellence in cardiac sciences, cardiothoracic & vascular surgery, transplantation, interventional pulmonology, and critical care.

CONNECTIVITY AND CONVENIENCE :

Kolkata is well connected by Netaji Subhas Chandra Bose International Airport, an expanding metro rail network, and efficient transport systems. A wide range of hotels, convention centres, and academic venues make it ideal for hosting national and international medical conferences.

CULTURE, CUISINE & CHARM :

Beyond the conference halls, Kolkata invites you to experience its colonial architecture, art galleries, and literary heritage. The iconic Victoria Memorial, Howrah Bridge, and the Hooghly riverfront offer glimpses of its grandeur. Don’t miss the city’s legendary Bengali cuisine—especially rosogolla, sandesh, and mishti doi.

WELCOME TO KOLKATA:

Kolkata embodies the perfect blend of heritage, hospitality, and healthcare excellence. It is not just a city—it’s an experience that inspires learning, collaboration, and compassion.
