

## **IACTSCON 2027: PROPOSED HOST CITY KOLKATA**

Kolkata, the city of joy, again aspires to host the **IACTSCON in 2027**. Having organized IACTSCON only twice before, in 2001 and 2012, the eastern part of India now looks forward for this prestigious opportunity once again.

Kolkata is a historical metropolis of India with well-established air and rail and ground connectivity . There are world class hotels and enough infrastructure for a event of this magnitude. The weather in February is fabulous in Kolkata.

The proposed venue is **Hotel ITC Royal**, which is a world class facility designed for events like this with other hotels in close proximity also. Many big medical conferences like the recent CSI Annual Conference 2023, Annual Conference of the Indian Society of Organ Transplant 2023 have already being organized there.

Cardiac surgery of all forms including adult, congenital, transplant and thoracic surgery has made tremendous progress in the city with many centres of excellence in both private and public sector in the last decade.

Being known as the cultural capital of the country, Kolkata has local traditions in drama, art, film, theatre, and literature. Many people from Kolkata—among them, several Nobel laureates—have contributed to the arts, the sciences, and other areas.

This city earnestly wants to host this event with an efficient and enthusiastic organizing committee and invites you all to choose the well known hospitality of eastern India.

**CHOOSE KOLKATA FOR IACTS 2027!**
